In the year 1964, the Police Department acquired, through donations and funds raised from the dance, a two-way police radio, a foam-type fire extinguisher, and three hand-held spot lights for \$450.00, at no cost to the town. Donations are still coming in.

The Chief drove his car over 3,500 miles in patrol and various other operations without compensation for car expense or time, over and above the other calls for which compensation was made. Officers also donated time and expense of operating their own cars. In addition, uniforms and equipment worn by the police are their own and purchased by them at a cost of over \$100.00 to each man.

The Department was run as efficiently as it could be under numerous set-backs and will be more efficient in the future.

Many thanks go out to the people of the town who aided the Department financially and constructively throughout the year. Acknowledgement is also tendered those who appreciated our efforts to be of public service.

REPORT OF THE FOREST FIRE WARDEN AND YOUR DISTRICT CHIEF

The 1964 forest fire season surpassed the record year of 1963 in both length and severity. For the second successive year, we experienced a rainfall deficiency of more than ten inches and the compounding of such drought conditions, together with the many days of strong, dry winds, characterized 1964 as one of the most hazardous years in the past half century. Although our fire season was three weeks longer than that of 1963, the number of fires showed only a slight increase and more remarkable was the fact that the area burned dropped from 2280 acres in 1963 to 900 acres in 1964. Early detection and rapid response kept many potential fire disasters from becoming reality. We all owe a debt of gratitude to the men in this community who responded and fought our fires so efficiently. Our state is now 86% wooded and its economy—both industrial and recreational—is greatly dependent on this forest resource. The responsibility for adequate fire protection of this great area—4,350,000 acres—is everyone's responsibility and prevention is one of our most effective tools.

Prevention is good common sense.

1. Take your rubbish to the town dump. If you must burn, obtain a permit and watch your fire until it is dead out.
2. Instruct your children in fire safety. Keep matches from young children. Explain to them the dangers of lighting matches and making outdoor fires.
3. Be sure discarded smoking material and matches are out.

A major portion of our preventable fires this year are chargeable to three causes: (1) permit fires allowed to escape; (2) children playing with matches; and (3) smokers. Let's be mindful of the fact that all such fires endanger property and lives.

We wish to thank you for your very fine cooperation during the past fire season and with your continued cooperation we are confident that we can improve our fire record in 1965.

Number of fires and burned area in 1964

State: Fires—886; Area-Acres—875.

District: No Fires.

Town: Fires—7; Area-Acres—23.

On the advice of the State Board of Education, we have not figured in the Special Aid to Education as it may not be available for 1965-66.

SUPERINTENDENT'S REPORT

For the current year Candia has received state aid as follows: Foundation Aid \$54,531.21; School Building Aid \$1,683.06; Sweepstakes \$10,307.88; Special Aid \$7,899; total aid of \$74,421.15. Total received in 1962-63 was \$41,388.02, and last year was \$60,243.19. It may well be that the Sepical Aid will not be available and that increased Foundation Aid will more than make up the difference.

We expect an enrollment next year of over 350 pupils, necessitating the use of all 14 classrooms, and in 1966-67 we expect to be short one room. The people in Candia will then be at an educational crossroads, with several possibilities: 1. Continue to build the minimum space necessary; 2. Build to incorporate spaces for a widened educational program; 3. Build for either of the above plus a new kitchen and cafeteria; 4. Join a co-operative school which might take any of several organizational patterns. Each of these solutions, and there well may be more, require considerable thought and detailed study. This is particularly true of any co-operative school study, since the law is not simple, and there are many possible combinations of districts, grades, formulas, etc. At the moment, willingness to study and learn about all of these possibilities is the main consideration. Solutions will not be easy or inexpensive. Any decision will affect the education of the children of Candia.

This is a legislative year, and Candia should keep its eye on all things financial. Better still would be organized representation at committee hearings when bills which might affect Candia are being discussed.

Your continued support of the schools is appreciated.

Respectfully submitted,

C. MAURICE GRAY
